

EUSEW 2019 – EuroACE Session
Implement, Industrialise, and Imagine Future Building Renovation
Wednesday 19th June, 11.00-12.30

Adrian JOYCE

 @adrian_joyce / @_EuroACE

Secretary General, EuroACE - European Alliance of Companies for Energy Efficiency in Buildings

Adrian JOYCE is Secretary General of the European Alliance of Companies for Energy Efficiency in Buildings (EuroACE), a Brussels-based business association which initiated the Renovate Europe Campaign. He is a professionally qualified architect who spent seventeen years in private practice (working in the UK, France, Belgium and Ireland), before getting involved in architectural policy. Adrian was Practice Director of the Royal Institute of the Architects of Ireland, before moving to Brussels to join the Architects' Council of Europe, where he became Director. He also holds a part-time teaching post at the Catholic University of Louvain-la-Neuve and is currently serving as the Chairman of the Coalition for Energy Savings.

Orla COYLE

 @SEAI_ie

Programme Manager – Near Zero Energy Buildings & High Performance Retrofit

Orla COYLE is a Chartered Engineer who is Programme Manager for NZEB and High Performance Retrofit within the Sustainable Energy Authority of Ireland. Orla's role involves the development of policy and programmes to encourage the retrofit of the Irish building stock and methodologies for demonstrating compliance with NZEB. She has 20 years' experience in the energy performance of buildings both in Ireland and Australia. As a consultant, Orla was involved with the environmental, energy and sustainable assessment of both new and existing buildings.

Sibyl STEUWER

 @BPIE_EU

Germany Programme Manager, BPIE – Buildings Performance Institute Europe

Sibyl STEUWER has been working on sustainable energy transition and the politics of energy efficiency for more than a decade. Her professional expertise includes the governance of the German energy transition, policy instrument choice in climate and energy policy, and buildings politics in Germany and Europe. Currently, she is working on a project funded by the German Environmental Agency on experiences of industrialising renovation approaches in Europe. Prior to joining BPIE she had worked for the Environmental Policy Research Centre at Freie University Berlin, the German Advisory Council on the Environment, and the German Council for Sustainable Development. Sibyl holds a PhD in political science as well as a M.A. and a B.Sc. in Environmental Management

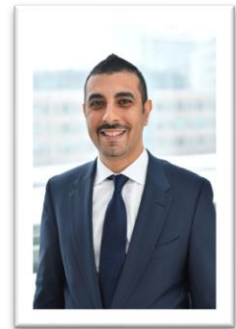

Remon ZAKARIA

 @Remon82123057 / @EBRD

Associate Director, Energy Efficiency & Climate Change, EBRD - European Bank for Reconstruction & Development

Remon ZAKARIA is an Associate Director at EBRD's Energy Efficiency and Climate Change team where he leads the intermediated green finance unit focusing on energy efficiency in the public sector. Remon has over 15 years of experience in the energy sector and has been involved in a variety of fields: climate policies, project finance, consultancy, engineering and management. He holds an MSc and BSc in Energy Engineering from Politecnico di Milano (Italy).

Quentin JOSSEN

 @climact

Energy & Climate Change Consultant, Climact

Quentin JOSSEN is energy engineer with a PhD in engineering sciences (ULB - Université libre de Bruxelles). He worked as teaching assistant at the ULB and as quantitative analyst at REstore before joining CLIMACT in 2015. He currently supports businesses, public administrations and NGOs in the development of low carbon strategies and action plans as a consultant at CLIMACT. His key projects include the Walloon long-term buildings energy renovation strategy, improvement scenarios of the Buildings Energy Performance regulation in Wallonia, Belgian Debate on Carbon Pricing, low-carbon roadmaps for industry federations, 2050 net-zero pathways for the EU.
